BUILDING PLOT WITH VIEWS TO EL PORTET BAY

Plot for sale in Moraira. A large, privately owned 1,011 square metre building plot in the Arnella area of Moraira. The images are taken from the ground level or looking down on the plot from the road which is a short cul de sac of only six villas. The plot was formerly part of a very large garden of an adjacent villa. A large villa of over 350 square metres could be built on the plot, orientating it to maximise the views to the sea. A level entry to the villa from the road could be created at first floor level with the living area on the higher floor and bedrooms below. There is an existing boundary wall from the road to the plot and mains services are next to the plot. Planning permission can be obtained for any style of villa and the buyer is free to choose their own builder.
